CHICKENS, EGGS AND BROILERS

Production, Disposition, Cash Receipts and Gross Income, 1974-1975,
By States

POULTRY INCOME UP: Gross income from the production of eggs, chickens and broilers in the year ending November 30, 1975 totaled \$5.8 billion compared with \$5.5 billion in 1974, according to the Crop Reporting Board. Of the 1975 gross income, 48 percent was from eggs, 50 percent from broilers, and 2 percent from other chickens. In 1974, the percentages were 54 percent for eggs, 44 percent for broilers, and 2 percent for other chickens. Cash receipts from eggs, broilers and chickens marketed during the year ending November 30, 1975 were about the same as gross income.

Gross income from turkeys in 1975 totaled \$794 million, bringing the combined income from eggs, broilers, chickens and turkeys to \$6.6 billion, compared with \$6.2 billion in 1974.

EGG PRODUCTION LOWER: Gross income from eggs was \$2.8 billion, 4 percent below the 1974 total of \$2.9 billion. The 1975 production of 64.4 billion eggs was down 3 percent from the 66.1 billion produced in 1974. Eggs sold totaled 63.8 billion, 3 percent below 1974. Eggs averaged 52.5 cents per dozen in 1975 compared with 53.3 cents in 1974.

CHICKENS AND BROILERS: The total value of sales of chickens and broilers was over \$3 billion, the result of higher prices received in 1975, 18 percent above 1974. The value of broiler sales amounted to 97 percent of the total compared with 95 percent in 1974. Sales in 1975 totaled 12.1 billion pounds, compared with 12.5 billion pounds in 1974.

BROILER PRODUCTION DOWN: Gross income for broilers at \$2.9 billion was up 19 percent from the 1974 total of \$2.4 billion. Prices in 1975 averaged 26.3 cents per pound on an equivalent live weight basis, up from the year earlier average of 21.5 cents. Whereas, production of broilers in 1975 totaled 2.9 billion birds, down 2 percent from 1974.

FEWER CHICKENS RAISED: Gross income for chickens raised was \$109 million, down 12 percent from the 1974 total of \$123 million. But prices in 1975 averaged 9.9 cents per pound live weight, up from the 1974 average of 9.7 cents. Cash receipts in 1975 were \$104 million, compared with \$118 million a year earlier. Chickens raised in 1975 (excluding broilers) totaled 274 million, 4 percent fewer than in 1974. Chicken production (home consumption plus sales adjusted for change in inventory) was 231 million birds weighing 1.1 billion pounds live weight, compared with 239 million birds and 1.2 billion pounds live weight in 1974.

FARM CONSUMPTION OF EGGS AND CHICKENS: The number of chickens consumed on farms where produced totaled 14 million, compared with 15 million in 1974. Egg consumption at 525 million was down 8 percent from the 572 million consumed in 1974.

DEATH LOSS: Death loss of chickens on hand December 1, 1974 was 11.2 percent compared with 11.3 percent a year earlier. This excludes chickens destroyed under the Exotic Newcastle Disease Eradication Program in 1974.
